WORK EXPERIENCE

AWS Cloud Computing Intern - HashTek Solutions, Visakhapatnam

May 2025 - Jun 2025

- Provisioned and managed EC2 instances and configured Security Groups to control access, applying core cloud infrastructure practices used in production deployments.
- Configured static website hosting on S3 as part of hands-on training
- Created and managed AMIs for instance replication, and configured secure remote access via SSH for server administration.

PROJECTS

AI RESUME ANALYZER - Django, Python, Gemini API, RAG, SQLite [\[Live\]](#)[\[GitHub\]](#)

- Built a full-stack Django web application enabling users to upload PDF resumes and receive automated ATS compatibility scores based on skill and keyword matching.
- Integrated Gemini API with a RAG pipeline to generate personalized resume improvement suggestions and likely interview questions.
- Tested the analyzer against 20+ sample resumes to validate scoring accuracy; deployed on Render with a SQLite-backed dashboard for skill analysis and ATS scores.

AI CAREER ROADMAP GENERATOR - React, FastAPI, NLP, PostgreSQL, Gemini API [\[Live\]](#)[\[GitHub\]](#)

- Developed a full-stack application (React frontend, FastAPI backend) that analyzes user experience and generates personalized, week-by-week study roadmaps.
- Integrated Gemini API to process user skill input and structure output into an interactive, visualized roadmap on the frontend.
- Built an AI chatbot mentor feature to handle real-time user queries; deployed on Render with a PostgreSQL backend.
